Pass, Attack, Shoot, Score!

'Pass, Attack, Shoot, Score!' focuses on the power of sport to motivate and encourage students, coaches and teachers from 4 European schools, thus, to improve their educational performance and sports achievements. It also looks at how sporting activities can be a positive factor to develop participants' teamwork, leadership and citizenship skills, enhance their cultural awareness, promote European values such as sports tolerance and respect, multicultural communication and social integration. We have a chance to exchange reciprocal students and coaches from different kind of sports who can train together during 3 meetings, take part in friendly competitions, compare training methods, as well as attend school lessons, have linguistic games, meeting sports legends, art and music workshops, visits. The final products: a web site, sports brochures / questionnaires / presentations / picture dictionary / songs / worksheets will be shared online, and every EU citizen can benefit from them. We expect our participants to enhance their sporting skill development through hands-on experience that addresses their social inclusion, well-being, and career-building opportunities. They will also enrich their communication and digital skills through continuous collaboration with peers. Teachers will improve their teaching techniques and instructional materials, expand their sports network. As a result, we will build them pathways to future prosper and achieve, both in and out of sport.
